DETAILED ACTION

This is an Allowance for Application no. 10/633,273 in response to the amendment filed on April 19, 2007.

Allowable Subject Matter

Claims 1-35, and 38-47 are allowed.

The following is an examiner's statement of reasons for allowance: After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-35 and 38-47 are found to be in condition for allowance. The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method, video picture produced, computer system, or computer readable medium wherein the second or fourth quadrant are filtered while other quadrants are not processed. The quadrants are defined as shown in Figure 5 of the application. The closest prior art ('Adaptive Deblocking Filter' to List et al.) discloses the filtering of all quadrants. However, List fails to particularly teach or suggest only filtering blocks when the prediction direction is a second or fourth quadrant direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Art Unit: 2621

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
